

## Scripps Skilled Nursing Facilities Network

There may come a time when you or a loved one need ongoing medical care outside a hospital setting.

At Scripps, we work with a network of independent skilled nursing facilities equipped to provide you and your family with the best possible nursing care when and where you need it. These facilities meet the high quality and safety standards required by Scripps and the Centers for Medicare and Medicaid Services and are conveniently located throughout San Diego County.

### Network facilities include:

- **Physician oversight** — An onsite Scripps physician will assess you or your loved one, and provide ongoing care throughout the duration of a skilled nursing stay.
- **Comprehensive case management** — Scripps case managers are present throughout the network to help coordinate timely care and ensure a safe discharge.
- **Focus on quality** — Scripps liaisons meet monthly with each nursing home to review key quality measures on an ongoing basis.

By choosing a skilled nursing facility in our network, you will have the reassurance of knowing that Scripps is coordinating your care and providing a seamless transition that can be helpful during times of stress, injury and recovery.
